Standard Motor Products Releases 170 New Numbers

NEW YORK, N.Y., March 28, 2025 – Standard Motor Products, Inc. (SMP) is pleased to announce that it released a total of 170 new part numbers in the first quarter of 2025, including introductions from SMP’s Vehicle Control and Temperature Control divisions. New coverage for late-model import and domestic vehicles was added across multiple powertrains.

Standard’s commitment to releasing new applications for popular vehicles in a variety of key categories is evident in its latest release. Ignition Coils have been added for Hyundai cars and SUVs including the 2024-21 Elantra and 2024-22 Kona, and multiple new applications have been added to Standard’s Advanced Driver Assistance Systems (ADAS) Program. New coverage in this category includes Park Assist Cameras for import and domestic vehicles like the 2024-18 Chrysler Pacifica and 2024-20 Voyager, as well as Nissan, Toyota, and Honda vehicles. Seven new ABS Speed Sensors were added, offering coverage for over one million Hyundai vehicles through the 2025 model-year, as well as the 2023-20 Kia Soul and General Motors vans through 2024. Also included in the release were Collision Repair components such as Hood Latch Assemblies, Tailgate Latch Assemblies, and Multi-Function Connectors for over one hundred million vehicles.

New numbers from Four Seasons® include nearly 70 Hose Assemblies, adding coverage for over nine million import and domestic vehicles. This new offering includes Liquid Lines for the 2023-19 Subaru Forester, Discharge Lines for the 2024-21 Kia Sorento and 2023-21 Hyundai Santa Fe, and Suction and Liquid Lines for the 2023-21 Toyota Tacoma. Air Door Actuators were introduced for over three million General Motors trucks as well as the 2021-19 Nissan Altima and 2020-19 Infiniti QX50. Four Seasons’ Reman and New Compressor programs have expanded as well, offering coverage for popular vehicles like the 2022-18 Honda Accord and 2023 Honda Civic. Additional categories that see expansion include Electric Coolant Pumps, Water Inlets, Thermal Management Modules, Heater Cores, Engine Coolant Auxiliary Pumps and more.

Jack Ramsey, Senior Vice President of Sales and Marketing, SMP, stated, “The first quarter of 2025 saw the introduction of many of the components that professional technicians will be looking for. In addition to complete programs with industry-leading coverage, we are also committed to delivering the highest-quality parts in the aftermarket, so our distribution partners can recommend Standard® and Four Seasons® with confidence.”

All new applications are listed in the catalogs found at StandardBrand.com and 4S.com, and in electronic catalog providers.

About SMP

With over 100 years in business, Standard Motor Products, Inc. is a leading independent manufacturer and distributor of premium replacement parts in the automotive aftermarket and a custom-engineered solutions provider to vehicle and equipment manufacturers in diverse non-aftermarket end markets. SMP sells its products primarily to retailers, warehouse distributors, original equipment manufacturers and original equipment service part operations in the United States, Canada, Europe, Asia, Mexico and other Latin America countries.
