

Standard Motor Products has partnered with a 3PL provider, Transportation Insight, for routings on all of the SMP responsible LTL shipments. They have made available a web site to access the routing for the shipments. We need your assistance in processing shipments to Standard that Standard is responsible for using this site. For all routings, please access this web site, [www.routeshipment.com/r2000/](http://www.routeshipment.com/r2000/) and put in the few data fields required and select route. The results will be the least cost carriers in order lowest to highest. You need to select the least cost carrier shown for your shipment and ship to Standard on a collect basis.

This method will replace any previous Carrier Matrix that may have been provided.

Please begin to use this process for all Standard responsible shipment immediately.

Below is a copy of the website input screen and the results of a carrier request.

### Route Shipment Request

**For any shipment weighing less than 150 lbs.: Contact your local SMP Purchasing Rep for the proper UPS Account Code.**

	<b>Service Level</b> Standard <input type="button" value="v"/>	<b>Request Date</b> 7/12/2016
