Standard Motor Products, Inc. Automotive Releases 388 New BWD Part Numbers

New York, N.Y., July 31, 2013 - Standard Motor Products, Inc. (SMP®) announces the addition of 388 new part numbers to its BWD® engine management line, covering domestic and import vehicles.

More than 150 switches including hazard warning, combination, cruise control, multi-function, power seat memory and more, covering an additional 70 million additional VIO, highlight this expanded coverage for BWD. Other expanded categories include TPMS sensors, exhaust gas temperature sensors, EGR control solenoids, airbag clocksprings, camshaft sensors, crankshaft sensors, ABS speed sensors, power door lock actuators and ignition coils.

All new applications are listed in the eCatalog found at www.BWDbrand.com and in electronic catalog providers.

BWD is an aftermarket leader, providing a premium line of engine management products. BWD manufactures and distributes high technology critical components for late model domestic and import vehicles including: DIS control modules, emission components, EGR valves, ignition coil-on-plug coils, ignition wire, fuel injectors and fuel system components, as well as a broad range of sensors, switches and relays.

For additional information visit www.BWDbrand.com.

About SMP:

SMP supplies independent professional auto technicians and automotive do-it-yourselfers with high quality replacement parts for engine management ignition, emission and fuel systems as well as temperature control products for domestic and import cars and light trucks. SMP products are sold through both traditional and non-traditional distribution channels. For more information, visit www.smpcorp.com.
