Standard Motor Products Releases New Numbers in 35 Categories

NEW YORK, N.Y., July 7, 2025 – Standard Motor Products, Inc. (SMP) is pleased to announce that it has released new part numbers across 35 product categories in Q2 of 2025. This includes new applications from SMP's Vehicle Control and Temperature Control divisions. New coverage for late-model import and domestic vehicles was added across multiple powertrains.

Demonstrating an ongoing commitment to advanced internal combustion engine (ICE) technology, Standard® has released new applications in a variety of key categories including variable valve timing, turbocharging, emission controls and more. Standard® has also expanded coverage in growing, powertrain-neutral categories including Park Assist Cameras for popular import vehicles like the 2021-17 Honda Civic, and 2022-20 Toyota Corolla, and Active Grille Shutters for 4.3 million Stellantis vehicles as well as the 2023-21 Nissan Rogue, 2021-18 Volkswagen Jetta, and 2024-21 Toyota Sienna. New coverage also includes ABS Speed Sensors for 4.5 million vehicles including the 2025-20 Ford Explorer, 2025-20 Nissan Sentra, 2023-21 Kia Sorento and more. Power Door Lock Actuators have been added for popular vehicles like the 2022-13 Toyota Prius and 2025-18 Volkswagen Atlas. In addition, Multi-Function Connectors have been added for over 46 million vehicles. Additional Standard® categories that see expansion include MAP Sensors, Engine Oil Coolers, Door Latch Assemblies, Oil Pressure Gauge Switches, Turbocharger Kits, Vapor Canister Purge Valve Hoses, Variable Valve Timing Actuators and more.

New numbers from Four Seasons® include 22 new Hose Assemblies, adding coverage for over 1.8 million import and domestic vehicles. This new offering includes Suction and Liquid Lines for popular vehicles like the 2023-22 Hyundai Palisade, 2023-20 Hyundai Sonata, and 2024-19 Genesis G70. Aluminum Heater Cores have also been added, covering the 2021-16 Mazda CX-3 and 2020-17 Toyota Yaris. Parallel Flow Evaporator Cores are new for the 2022-15 RAM ProMaster City, and Idler Pulleys have been added covering more than 1.1 million vehicles, including popular Honda and Acura cars.

Jack Ramsey, Senior Vice President of Sales and Marketing, SMP, stated, "In the second quarter, we introduced new coverage in multiple growing categories, continuing to deliver the precision-engineered products for late-model vehicles that technicians expect from Standard® and Four Seasons®. Each new component is a testament to our ongoing focus on quality, making it easy for our partners to continue recommending Standard® and Four Seasons® with confidence."

All new applications are listed in the catalogs found at StandardBrand.com and 4S.com, and in electronic catalog providers.

About SMP

With over 100 years in business, Standard Motor Products, Inc. is a leading independent manufacturer and distributor of premium replacement parts in the automotive aftermarket and a custom-engineered solutions provider to vehicle and equipment manufacturers in diverse non-aftermarket end markets. SMP sells its products primarily to retailers, warehouse distributors, original equipment manufacturers and original equipment service part operations in the United States, Canada, Europe, Asia, Mexico and other Latin America countries.
