Date:

Subject: NAFTA Certificate of Origin

Dear SMP – Independence Supplier:

SMP – Independence must annually obtain information from our suppliers to allow us to review the eligibility of our products for certification under NAFTA Guidelines. Annual NAFTA certification allows our parts to be classified at lower customs duty rates in Canada, and Mexico, and the U.S.

This document must cover the **blanket period from January 1st, 2018 through December 31st, 2018**. Please send your completed, signed document to the attention of: Materials Dept., NAFTA, 1300 W. Oak - Independence, KS 67301.

For all non-NAFTA parts, please provide the Harmonized Tariff Classification Code and Country of Origin.

If you need help completing the document, please refer to the NAFTA Desk at (202) - 482-0305

We appreciate your prompt attention to this request.

Thank you,

Standard Motor Products, Inc.
